BEST Munich Dark

Crop: 2022

BEST Munich Dark yields intense, full-bodied beers with a pronounced malty body and a bright dark color. The special malting process results in high degrees of solution without loss of the positive sensory properties of the malt. The enzyme-rich malt can also be processed in high grain bill proportions without any problems and without compromises, mostly by reducing the mashing work in the lower temperature range.

Flavor: Typical malty taste, honey

The below mentioned figures are subject to harvest-specific variations. All analysis are performed by independent, certified laboratories according to MEBAK „Brew-Technical Analysis Methods“.
